November 8, 2007

Dear Marc,

SMI has been officially open for two years. We have enjoyed a great deal of success during that period, but we would not have achieved half of what we did without the help of Area Networks. The hardware, software development, and help desk support your firm has provided us has been far beyond what I hoped for. It is most refreshing to deal with a firm of such high integrity and reliability that gives us more than they promised.

Thank you again, I look forward to our meeting next Monday.

Sincerely,

Phil O'Connor
